Christine .. as a query for my thoughts on the Peak Group, do you have any contact with a mother who gave up a child whilst living in another country and the child was adopted to a different country? Perhaps a migrant mother who now lives in Aust but gave up a child when they were living in eg. Sri Lanka?? I'm keen to find a mother or father who fits the category of "inter-country" parent as if I find one, I can then push this to the Attorney General and recommend we include them in the Peak Group which currently has no 1st parent representation! And I totally agree, the Govt has no plans to become "anti" adoption! Too much kowtowing with the Deborra-Lee's of the world unfortunately!
